**A BILL**

To enact sections 5120.12 and 5120.121 of the 1  
Revised Code to create local jail facility 2  
funding programs and to make certain capital 3  
appropriations for the biennium ending June 30, 4  
2026. 5

**BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:**

**Section 101.01.** That sections 5120.12 and 5120.121 of the 6  
Revised Code be enacted to read as follows: 7

**Sec. 5120.12.** (A) The local jail facility funding program 8  
is created in the department of rehabilitation and correction. 9  
Each year, as money is available, the department shall designate 10  
which projects involving the construction and renovation of 11  
county jails shall receive funding under this section. 12

(B) To determine which projects are eligible to receive 13  
funding, the department of rehabilitation and correction shall 14

rank each county based on its financial need with a percentile 15  
ranking using the following funding formula, as calculated by 16  
the department of taxation: 17

(1) First, the department of taxation shall determine the 18  
total value of all property in the county listed and assessed 19  
for taxation on the tax list as reported by the department of 20  
taxation in the preceding tax year, and list each county in 21  
order of total value, ascending, so that the county with the 22  
lowest value is number one on the list, which shall be called 23  
its property tax ranking; 24

(2) Then, the department of taxation also shall rank each 25  
county based on the estimate of the gross amount of taxable 26  
retail sales sourced to the county as reported by the department 27  
of taxation for the preceding calendar year, computed by 28  
dividing the total amount of tax revenue received by the county 29  
during that period from taxes levied under sections 5739.021, 30  
5739.026, 5741.021, and 5741.023 of the Revised Code by the 31  
aggregate tax rate levied by the county under sections 5739.021 32  
and 5739.026 of the Revised Code on the last day of the 33  
preceding calendar year, and list each county in order of total 34  
value, ascending, so that the county with the lowest value is 35  
number one on the list, except that any county that does not 36  
currently levy taxes under section 5739.021 or 5739.026 of the 37  
Revised Code shall be ranked at number eighty-eight on the list, 38  
which ranking shall be called its sales tax ranking; 39

(3) Finally, the department of taxation shall, for each 40  
county, add the property tax ranking to the sales tax ranking, 41  
and order the counties according to the sum of the two rankings, 42  
the county with the lowest sum being number one on the list, to 43  
determine the county's final ranking. The percentile ranking 44

shall be determined by taking the county's final ranking, 45  
dividing it by eighty-eight, and multiplying it by one hundred. 46  
If the final ranking is the same for two or more counties, the 47  
county with the lowest population shall receive the lowest final 48  
ranking. The final ranking for the counties shall be numbers one 49  
through eighty-eight, the lowest ranking county being number 50  
one, and the highest number eighty-eight. 51

(C) Upon receiving the final rankings, the department of 52  
rehabilitation and correction shall select a number of counties 53  
among the lowest ranking counties and invite the selected 54  
counties to apply for assistance. Two or more counties may 55  
jointly apply for assistance as long as at least one of the 56  
counties was invited to apply. The department of rehabilitation 57  
and correction shall adopt guidelines to accept and review 58  
applications and designate projects. The guidelines shall 59  
require the county or counties to justify the need for the 60  
project and to comply with timelines for the submission of 61  
documentation pertaining to the project and project location. 62

(D) Upon the application of a county invited under 63  
division (C) of this section, the department of rehabilitation 64  
and correction shall proceed with a needs assessment. Under a 65  
needs assessment, the department shall make a determination of 66  
all of the following: 67

(1) The need of the county for additional jail facilities, 68  
or for renovations or improvements to existing jail facilities, 69  
based on whether and to what extent existing facilities comply 70  
with the standards in section 5120.10 of the Revised Code, 71  
including the age and condition of the jail facilities; 72

(2) The number of jail facilities to be included in a 73  
project; 74

(3) The estimated annual, monthly, or daily cost of 75  
operating the facility once it is operational, as reported and 76  
certified by the county auditor; 77

(4) The estimated basic project cost of constructing, 78  
acquiring, reconstructing, or making additions to each facility; 79

(5) Whether the county has recently received a grant from 80  
the state to construct or renovate jail facilities. 81

(E) The department of rehabilitation and correction, 82  
following the completion of a needs assessment under division 83  
(D) of this section, shall make a determination in favor of 84  
constructing, acquiring, reconstructing, or making additions to 85  
a jail facility only upon evidence that the proposed project 86  
conforms to the construction and renovation standards described 87  
in divisions (D) and (E) of section 5120.10 of the Revised Code, 88  
and that it keeps with the needs of the county or counties as 89  
determined by the needs assessment. Exceptions shall be 90  
authorized only in those areas where topography, sparsity of 91  
population, and other factors make larger jail facilities 92  
impracticable. 93

(F) Except as otherwise provided in this section and 94  
section 5120.122 of the Revised Code, the portion of the basic 95  
project cost supplied by the state for each approved county 96  
shall be the difference between one hundred per cent and a per 97  
cent equal to one per cent of the basic project costs times the 98  
percentile in which the county ranks according to the percentile 99  
ranking under this section, for the fiscal year preceding the 100  
fiscal year in which the department approved the county's or 101  
counties' project. 102

Except as otherwise provided in section 5120.122 of the 103

Revised Code, at no time shall the state's portion of the basic 104  
project cost be less than twenty-five per cent of the total 105  
basic project cost. If a county's portion of the basic project 106  
cost is calculated to be greater than seventy-five per cent of 107  
the total basic project cost, the county's portion shall be 108  
seventy-five per cent of the basic project cost. In the case of 109  
a multicounty jail facility, if the sum of two or more counties' 110  
portions of the total basic project cost are calculated to be 111  
greater than seventy-five per cent of the total basic project 112  
cost, the counties' portions shall be determined pro rata, so 113  
that the sum of their portions shall be equal to seventy-five 114  
per cent of the total basic project cost. 115

**Sec. 5120.121.** (A) The large local jail facility funding 116  
program is created in the department of rehabilitation and 117  
correction. Each year, as money is available, the department 118  
shall designate which projects involving the construction and 119  
renovation of county jails shall receive funding under this 120  
section. 121

(B) Within forty-five days of the date of the department 122  
of rehabilitation and correction's publishing of the department 123  
of taxation's financial need ranking conducted under division 124  
(B) of section 5120.12 of the Revised Code, a county, or two or 125  
more counties, may apply for assistance under this section if 126  
the county's or counties' share of the basic project cost, as 127  
calculated under division (F) of section 5120.12 of the Revised 128  
Code, would be seventy-five per cent. The county's or counties' 129  
application shall include the following: 130

(1) A project proposal for the construction or renovation 131  
of jail facilities, with a reasonable estimate of what the basic 132  
project cost would be, as well as the daily, monthly, or annual 133

cost of operating the facility once it is complete; 134

(2) Evidence that the county will be able to generate 135  
adequate revenue to fund the county portion of the basic project 136  
cost and the operations and maintenance of the proposed jail 137  
facility or facilities; 138

(3) The signatures of each member of the board of county 139  
commissioners, as well as the county auditor, or in the case of 140  
a county that has adopted a charter under Ohio Constitution, 141  
Article X, the signature of the executive or president of the 142  
legislative or taxing authority of the county, as well as the 143  
county auditor. 144

(C) Upon receiving an application from a county or 145  
counties under division (B) of this section, the department of 146  
rehabilitation and correction shall choose the lowest ranking 147  
county that applied, as those rankings were determined under 148  
division (B) of section 5120.12 of the Revised Code, whether or 149  
not the county is applying jointly with other counties, and if 150  
satisfied that the application meets the requirements of 151  
divisions (A) and (B) of this section, shall conduct a needs 152  
assessment in accordance with division (D) of section 5120.12 of 153  
the Revised Code. If the department is not satisfied that the 154  
application meets the requirements of divisions (A) and (B) of 155  
this section, the department shall choose the next lowest 156  
ranking county that applied, and for which it is satisfied that 157  
the requirements of divisions (A) and (B) of this section are 158  
met, and invite that county to apply. 159

The department of rehabilitation and correction shall 160  
adopt guidelines to accept and review applications and designate 161  
projects. The guidelines shall require the county or counties to 162  
justify the need for the project and to comply with timelines 163

for the submission of documentation pertaining to the project 164  
and project location. 165

(D) Upon conducting the needs assessment under division 166  
(C) of this section, the department shall request that the 167  
county or counties submit an updated application for assistance 168  
under this section, which shall have the same requirements as 169  
the application under division (B) of this section, except that 170  
the application shall state the basic project cost and operating 171  
and maintenance costs as determined by the department of 172  
rehabilitation and correction under division (C) of this 173  
section, and shall contain evidence that the county will be able 174  
to generate adequate revenue to fund the county portion of the 175  
basic project cost and the operations and maintenance of the 176  
proposed jail facility or facilities. 177

(E) (1) Upon receiving an updated application from a county 178  
under division (D) of this section, the department of 179  
rehabilitation and correction shall make a determination in 180  
favor of constructing, acquiring, reconstructing, or making 181  
additions to a jail facility only upon evidence that the 182  
application complies with division (D) of this section, that the 183  
proposed project conforms to the construction and renovation 184  
standards described in divisions (D) and (E) of section 5120.10 185  
of the Revised Code, that it keeps with the needs of the county 186  
or counties as determined by the needs assessment, and that the 187  
county or counties will generate adequate revenue to fund the 188  
county portion of the basic project cost and the operations and 189  
maintenance of the proposed jail facility or facilities. 190  
Exceptions shall be authorized only in those areas where 191  
topography, sparsity of population, and other factors make 192  
larger jail facilities impracticable. 193

(2) If the department of rehabilitation and correction 194  
does not make a determination in favor of a project under 195  
division (E)(1) of this section, the department shall invite the 196  
next eligible county to apply for assistance as described in 197  
division (C) of this section, and proceed with the process 198  
accordingly. 199

(F) Except as otherwise provided in this division, the 200  
county's or counties' portion of the basic project cost shall be 201  
determined in accordance with division (F) of section 5120.12 of 202  
the Revised Code. To the extent appropriated funds are 203  
available, beginning with the lowest ranking county or counties 204  
according to the financial need ranking conducted under division 205  
(B) of section 5120.12 of the Revised Code that are determined 206  
to be eligible under this section and proceeding from the lowest 207  
to the highest ranked eligible county or counties, the state 208  
shall pay twenty-five per cent of the county's or counties' 209  
basic project cost or, if the remaining amount of appropriated 210  
funds is less than twenty-five per cent of the basic project 211  
cost, the remaining amount of appropriated funds. If the 212  
department of rehabilitation and correction awards less than 213  
twenty-five per cent of the basic project cost to a county or 214  
counties, the department shall give priority to that county or 215  
those counties when the department awards funding under the 216  
large local jail facility funding program in the next subsequent 217  
year. 218

**Section 201.10.** Except as otherwise provided in this act, 219  
all appropriation items in this act are appropriated out of any 220  
moneys in the state treasury to the credit of the designated 221  
fund that are not otherwise appropriated for the biennium ending 222  
June 30, 2026. 223

the Higher Education Improvement Fund (Fund 7034) or the Higher  
Education Improvement Taxable Fund (Fund 7024) that require

296

297

298

local funds to be contributed by any state-supported or state- 299  
assisted institution of higher education, the Department of 300  
Higher Education shall not recommend that any funds be released 301  
until the recipient institution demonstrates to the Department 302  
of Higher Education and the Office of Budget and Management that 303  
the local funds contribution requirement has been secured or 304  
satisfied. The local funds shall be in addition to the 305  
appropriations in this act. 306

**Section 207.400.** None of the capital appropriations in 307  
this act for state-supported or state-assisted institutions of 308  
higher education shall be expended until the particular 309  
appropriation has been recommended for release by the Department 310  
of Higher Education and released by the Director of Budget and 311  
Management or the Controlling Board. Either the institution 312  
concerned, or the Department of Higher Education with the 313  
concurrence of the institution concerned, may initiate the 314  
request to the Director of Budget and Management or the 315  
Controlling Board for the release of the particular 316  
appropriation. 317

**Section 207.410.** (A) No capital appropriations in this act 318  
made from the Higher Education Improvement Fund (Fund 7034) or 319  
the Higher Education Improvement Taxable Fund (Fund 7024) shall 320  
be released for planning or for improvement, renovation, 321  
construction, or acquisition of capital facilities if the 322  
institution of higher education or the state does not own the 323  
real property on which the capital facilities are or will be 324  
located. This restriction does not apply in any of the following 325  
circumstances: 326

(1) The institution has a long-term (at least twenty 327  
years) lease of, or other interest (such as an easement) in, the 328

real property. 329

(2) The Department of Higher Education certifies to the 330  
Controlling Board that undue delay will occur if planning does 331  
not proceed while the property or property interest acquisition 332  
process continues. In this case, funds may be released upon 333  
approval of the Controlling Board to pay for planning through 334  
the development of schematic drawings only. 335

(3) In the case of an appropriation for capital facilities 336  
that, because of their unique nature or location, will be owned 337  
or will be part of facilities owned by a separate nonprofit 338  
organization or public body and will be made available to the 339  
institution of higher education for its use or benefit, the 340  
nonprofit organization or public body either owns or has a long- 341  
term (at least twenty years) lease of the real property or other 342  
capital facility to be improved, renovated, constructed, or 343  
acquired and has entered into a joint or cooperative use 344  
agreement with the institution of higher education that meets 345  
the requirements of division (C) of this section. 346

(B) Any appropriations that require cooperation between a 347  
technical college and a branch campus of a university may be 348  
released by the Controlling Board upon recommendation by the 349  
Department of Higher Education that the facilities proposed by 350  
the institutions are: 351

(1) The result of a joint planning effort by the 352  
university and the technical college, satisfactory to the 353  
Department of Higher Education; 354

(2) Facilities that will meet the needs of the region in 355  
terms of technical and general education, taking into 356  
consideration the totality of facilities that will be available 357

after the completion of the projects; 358

(3) Planned to permit maximum joint use by the university 359  
and technical college of the totality of facilities that will be 360  
available upon their completion; and 361

(4) To be located on or adjacent to the branch campus of 362  
the university. 363

(C) The Department of Higher Education shall adopt and 364  
maintain rules regarding the release of moneys from all the 365  
appropriations for capital facilities for all state-supported or 366  
state-assisted institutions of higher education. In the case of 367  
capital facilities referred to in division (A) (3) of this 368  
section, the joint or cooperative use agreements shall include, 369  
as a minimum, provisions that: 370

(1) Specify the extent and nature of that joint or 371  
cooperative use, extending for not fewer than twenty years, with 372  
the value of such use or benefit or right to use to be, as is 373  
determined by the parties and approved by the Department of 374  
Higher Education, reasonably related to the amount of the 375  
appropriations; 376

(2) Provide for pro rata reimbursement to the state should 377  
the arrangement for joint or cooperative use be terminated prior 378  
to the expiration of its full term; 379

(3) Provide that procedures to be followed during the 380  
capital improvement process will comply with appropriate 381  
applicable state statutes and rules, including the provisions of 382  
this act; and 383

(4) Provide for payment or reimbursement to the 384  
institution of its administrative costs incurred as a result of 385  
the facilities project, not to exceed 1.5 per cent of the 386

appropriated amount. 387

(D) Upon the recommendation of the Department of Higher 388  
Education, the Controlling Board may approve the transfer of 389  
appropriations for projects requiring cooperation between 390  
institutions from one institution to another institution with 391  
the approval of both institutions. 392

(E) Notwithstanding section 127.14 of the Revised Code, 393  
the Controlling Board, upon the recommendation of the Department 394  
of Higher Education, may transfer amounts appropriated to the 395  
Department of Higher Education to accounts of state-supported or 396  
state-assisted institutions created for that same purpose. 397

**Section 207.420.** The Ohio Public Facilities Commission is 398  
hereby authorized to issue and sell, in accordance with Section 399

particularly sections 151.01 and 151.04 of the Revised Code, 401  
original obligations in an aggregate principal amount not to 402  
exceed \$397,000,000 in addition to the original issuance of 403  
obligations heretofore authorized by prior acts of the General 404  
Assembly. These authorized obligations shall be issued, subject 405  
to applicable constitutional and statutory limitations, as 406  
needed to provide sufficient moneys to the credit of the Higher 407  
Education Improvement Fund (Fund 7034) and the Higher Education 408  
Improvement Taxable Fund (Fund 7024) to pay costs of capital 409  
facilities for state-supported and state-assisted institutions 410  
of higher education. 411

153. of the Revised Code, with respect to the powers and duties 413  
of the Executive Director of the Ohio Facilities Construction 414  
Commission as they relate to the procedure and awarding of 415  
contracts for capital improvement projects, and the requirements 416

of section 127.16 of the Revised Code, with respect to the 417  
Controlling Board, do not apply to projects of community college 418  
districts and technical college districts. 419

**Section 207.440.** Those institutions locally administering 420  
capital improvement projects pursuant to sections 3345.50 and 421  
3345.51 of the Revised Code may: 422

(A) Establish charges for recovering costs directly 423  
related to project administration as defined by the Executive 424  
Director of the Ohio Facilities Construction Commission. The 425  
Ohio Facilities Construction Commission, in consultation with 426  
the Office of Budget and Management, shall review and approve 427  
these administrative charges when the charges are in excess of 428  
1.5 per cent of the total construction budget, provided that 429  
total administrative charges paid by the state do not exceed 430  
four per cent of the state's contribution to the total 431  
construction budget. 432

(B) Seek reimbursement from state capital appropriations 433  
to the institution for the in-house design services performed by 434  
the institution for the capital projects. Acceptable charges are 435  
limited to design document preparation work that is done by the 436  
institution. These reimbursable design costs shall be shown as 437  
"A/E fees" within the project's budget that is submitted to the 438  
Controlling Board or the Director of Budget and Management as 439  
part of a request for release of funds. The reimbursement for 440  
in-house design shall not exceed seven per cent of the estimated 441  
construction cost. 442

**Section 207.450.** TRANSFERS OF HIGHER EDUCATION CAPITAL 443
